USE OF TELEPHONES

LOCAL CALLS.—To make a local call, from one extension number to another within the buildings served by the University's intercommunicating telephone system, simply remove the receiver and dial the extension number desired.

CITY CALLS.—To make a city call, dial "Operator" and ask for a line; then dial the first three letters of the exchange and all of the accompanying numbers. When requesting outside parties to call you, always give them your local extension number, in addition to Monroe 3900, to aid them in having their calls completed without delay.

TOLL CALLS.—Charges are made for all calls to telephones listed in the Suburban Directory and for long-distance calls. For such calls, after giving the Operator your name and extension number, tell her whether the call is "business" or "personal," so as to facilitate the billing of charges.

IN CASE OF FIRE.—First, dial "Operator" and tell her the name of the building and the number of the room in which the fire is located. Next, turn in an alarm at the nearest fire-alarm station, giving also the street address of the building. Then is the time to try to put out the fire. Remember that the "soda-acid" extinguishers should never be used where electric wires are involved in a fire.

TO CALL THE POLICE.—Dial "Operator" and give her the necessary information, including your name, the room number and building where help of the police is wanted, and the nature of the trouble.
